

miso.

Freelance Cat

Remote. Mostly from your chair.

Profile

I inspect boxes, warm keyboards, and contribute a strong presence to meetings I was not invited to. Confident, curious, and committed to occupying the most important part of the brief.

Selected experience

Independent Cat • The Home Studio

Ongoing, with breaks for development and sleep.

The Laptop Warming Initiative

Supported a healthier work-life balance by lying across the keyboard. Delivered one overdue human break and several unrequested keystrokes.

Box 04: Quality Assurance

Entered, rotated, and stress-tested a delivery container. Approved it for permanent retention. Remained on site.

The Sofa Occupancy Project

Claimed the central cushion and directed a complete rethink of the human seating arrangement.

Professional development

Ongoing independent study in sunbeam tracking, packaging acoustics, and the sound of a cupboard opening.

Core skills

- Box Inspection
- Keyboard Warming
- Meeting Cameo
- Creative Supervision
- Excellent eye contact
- Strategic stillness

Availability

Between naps. My hours depend on the sun, which has not shared its calendar.

Available for meaningful work. And boxes.

References

The Sofa

"He showed up, sat down, and never really left."

A Cardboard Box

"A strong commitment to staying."

Fictional household objects.

Fictional portfolio demo. Miso is an invented character. No real animal is available for hire. No money or treats change paws.
